

Call, email, write or tweet your elected representatives to let them know that we care about the climate, that this is not a partisan issue, but one that affects everyone. All levels of government need to know that we want to stop expanding and subsidizing the fossil fuel industry and to move quickly to renewables. They need to know that it is critical to prioritize targeted, measurable, science-based climate plans with robust emissions reduction targets.

**Federal:** demand that government does not continue to fund and support tar sands development and the Trans Mountain Expansion pipeline in particular, which ignores Indigenous sovereignty, threatens employment opportunities and living standards, and endangers our future by contributing to climate change.

- Consider also contacting Honourable Rod Phillips, Minister of Environment: [Honourable Rod Phillips](#)
- Have your friends and family who live in other ridings call or email their MPP's to let them know they also oppose dismantling climate plans and want swift and effective climate action instead, including support for an accelerated transition to green energy and renewables.

**Municipal:** work to support progressive and climate friendly candidates as they gear up for an election amidst all of the uncertainty. TransformTO, toronto's climate action plan, has been severely affected by the Ontario government's actions. We need councillors who will support and vote to fund our local climate actions. Volunteer, donate, spread the word.
