

Queensland Premier Campbell Newman: Reject any plans for privatisation

To: Queensland Premier Campbell Newman

Queenslanders want a plan for quality services, and are calling on you to listen to the community and reject any plans for privatisation.

You've recently announced that your government will be holding a summit in Mackay to shape Queensland's future. We want you to use this opportunity not to launch a new wave of service cuts and privatisation, but instead, a real plan for quality services for Queenslanders no matter where they live or how much they earn.

Thanks for being part of it!

Working For Queenslanders is a community campaign run by Together with community partners across Queensland. This petition will be presented to the government at the 'Queensland Plan' summit in Mackay on May 10, 2013.
