

FAIR PAY FOR ALL!

Government MPs gave themselves a hefty pay-rise, back-dated, in 2013 at the same time as taking legal action to delay hard-working public servants a fair hearing on their wage rise.

So public servants were left waiting while politicians were awarded up to \$80,000 a year extra.

Now the Supreme Court of Queensland rejected the Government's latest attempt to stop a fair interim wage increase for public servants, upholding our case as union members.

Union members have won the legal battle, now we need to win the next round with the Premier.

Government MPs can stop the inequity now and pay fair. Public servants aren't asking for \$80,000 each, just a fair rise, and one that is back-paid to the start of the process just like the politicians got.

Together we need to make the Premier listen, to make up for lost time and to give us our rightful back-pay.
