If You Love This Planet
A Labour Roundtable on Climate Justice

Wednesday, November 13
6:30-9:30 pm
United Steelworkers' Hall
(25 Cecil St, Toronto)

Light refreshments will be served.

After the excitement of the worldwide climate rallies this fall and Toronto City Council declaring a climate emergency, we have real momentum.

We invite you to meet with other labour activists who are passionate about climate.

We'll be talking about obstacles, opportunities, and strategies for building movement in our own labour communities.

There are "no jobs on a dead planet." Let’s get our coworkers and unions on board to be part of the conversation about cutting emissions now.

Please RSVP:
