Words from Mozuud's Executive Director, Geoffrey Clarfield:

Today I have come here to ask you to do one thing and one thing only; I am asking you to sign a petition. The petition can be found on my organization's web site:

www.mozuud.org

The petition asks, no, the petition demands that the American, the Canadian, the British, the

Armenian, the Georgian and the Indian governments take immediate action to protect the Yazidi. The Yazidi are an ancient, indigenous, monotheistic people and the Islamic state has

declared a holy war against them, a jihad. They have slaughtered thousands of Yazidi, killed their men and children, raped and enslaved their women and girls. Yet today, both Canada and the United States who are now officially at war with ISIS in Iraq still refuse to arm the Yazidi.

Oh yes, by the way, the young Muslim men who fight for ISIS are selling Yazidi women and girls as slaves. The CBC has reported on this but there is no organized media outcry. Maybe this is because the young men of ISIS wear outlandish costumes and speak in a foreign language in their well-produced webcasts that are found all over the internet.

So far only the National Post has suggested that our government arm the Yazidi so that they can protect themselves, since everyone around them in Iraq are already armed to the teeth.

Here is a transcript of a conversation recorded among these young, ISIS slave traders in Iraq:

The first young man says, "Today is distribution day, god willing, each one takes his share."

The second man says, "Today is the day of female slaves and we should have our share."

Another blurts out, "I swear man I am searching for a girl, and I hope I find one!"

Then someone yells out, "Who wants to sell?"

Someone else answers, "I will sell her for a Glock pistol."

They start bargaining with one another and then one of them says, "It depends what she looks like."

Then one says, "I will buy her for a pistol."

But then he says, "If she is really 15 years old I have to check her teeth."

Then he says, "The price differs if she has blue eyes."

Then one of them says, "I will pay three bank notes."

That is about one hundred US dollars

Another one answers, "If she doesn't have teeth, why would I want her?"

Imagine for a moment, every one of you, right now, that these men are talking about your sister. Imagine they are talking about your daughter or your neighbour's daughter. Imagine that after having this talk about slaves, nothing happens. Imagine that these well armed young men go back to their SUVs, pick up their guns and ammunition and return to the jihad in Iraq, killing, torturing and kidnapping Yazidi men, women.

Remember that the Nazis ran the biggest slave trade of the 20th century. Remember that what ISIS did, and does, to these young women so did the Nazis do, to Jewish women, before and during world war two. Remember Auschwitz, remember Birkenau. Remember all the camps

where Jewish women were raped, enslaved, separated from their children, forced into prostitution and then killed. The leaders of ISIS have done their homework. They know that the Nazis got away with it and they are getting away with it as I speak to you now.

Before and during WWII the Canadian, the British and the American governments did nothing to stop it. Today, even the best of our political representatives have not yet acted in favour of the Yazidi. They will only do so if, you or I demand that they do.

Let us remember, the men and women in Ottawa, London, Washington and Brussels where NATO has our headquarters, are our civil servants. They are not our civil masters and so I ask you once again;

Go onto the internet

Go to the website www.mozuud.org and sign the petition.

Ask your daughters to sign the petition. Ask your sons, your cousins and your neighbours to sign the petition. Ask everyone you know to sign the petition do not wait. Do it on your cell phone if you do not have one, do it when you get home.

The Yazidi deserve your help. They cannot be abandoned. What happened to the Jews of Germany before and during WWII should not happen to the Yazidi in Iraq and Syria.

Thank you,
Geoffrey Clarfield
