END POLICE STREET CHECKS!

Motion to End Street Checks Going to Vancouver City Council

If you are in Vancouver, there is a motion regarding street checks going to City Council on Tuesday July 7th. The motion is [B2 Ending Street Checks in Vancouver](#).

Because City Council does not have explicit jurisdiction to do so itself, the motion calls on City Council to direct the Vancouver Police Board to prioritize ending street checks. The motion is not as strong as we would like, so it is important for City Council to make clear that its political priority is to end police street checks and to hear from us so that this motion passes.

BC Civil Liberties Association, Black Lives Matter-Vancouver, Hogan's Alley Society, Union of BC Indian Chiefs, and WISH Drop-In Society are calling for an END to police street checks in Vancouver and across BC.

Street checks are racist, specifically anti-Indigenous and anti-Black, harmful for low-income people, and fundamentally illegal. We need to end them now! Our goal is to have 50 speakers on this motion; will you be one of the speakers calling for an immediate end to street checks?
