

## JUNIOR ACCOUNTANT – ACCA TRACK

### ABOUT FKGB ACCOUNTING

We are a UK accounting firm based in Israel.

From our offices in Tel Aviv, we specialise in working with Israeli companies. We represent some of Israel's largest listed companies to small high-tech start-ups aiming to launch into the UK. We understand the challenges that Israeli companies encounter in their move to the UK and we have identified effective commercial solutions.

### DESCRIPTION

The successful applicant will receive training both on the job and through attendance on ACCA courses to develop the skills required to achieve a successful career in accountancy.

Initially, training will be provided in basic accountancy, bookkeeping, VAT and Payroll working both on individual and company clients to develop an understanding of the fundamentals of these areas.

On achieving competence in these areas the candidate will move on to work in our team dealing with the preparation of year end accounts for our partnership and limited liability clients. As their experience grows and their studies progress their responsibilities will increase to include initial preparation of company tax returns and assisting on client audits.

### REQUIREMENTS

- We are considering graduates from business/economics/accounting and similar who are looking for a career in Accountancy.
- The candidate will be required to study for their ACCA qualifications and a study package is provided.
- No previous experience in an accountancy or bookkeeping role is required.
- The applicant should have good communication, team-working and interpersonal skills and have a basic level of computer literacy.
- Candidates who do not have relevant academic qualifications but have 1-2 years of Finance or Accounts experience may also be considered.
