**Vote UKIP**

# A message from Nigel Farage MEP, Time for change!

An irrefutable fact! This referendum would not have happened without UKIP and its people's army of millions of supporters. Not since 1975 has the nation had the opportunity to decide itself how we are governed. UKIP have lead the way and welcome those following in our hard trodden footsteps on the 23rd June the right thing to do is to vote 'Leave'.

**Nigel Farage MEP**  
Party Leader

UKIP is the only party showing real growth in local Government, while the other parties are trying to hang on to what they have.

People see a lack of democracy and connection with the three old parties. UKIP bring a breath of fresh air into politics and offer the electorate a real alternative to the old status quo.

Our councillors come from different walks of life and really understand the communities they represent.

Importantly a UKIP councillor is not under a party whip like the old parties' councillors are. UKIP councillors are encouraged to represent the people who voted for them not the party they belong to.

Every year hundreds more UKIP councillors are being elected. We are giving people and communities what they deserve, more power for local people and local communities and more say over what happens in your street, village, town and City. We offer an alternative of direct democracy and empowering the people who elect us. UKIP is putting democracy back into local government.

Council budgets have been slashed by Government over recent years and the funding needs an urgent review. National government is prioritising funding the EU, Foreign aid and protecting Whitehall

Departments, ahead of protecting the services that you and the most vulnerable people in your community rely on.

Local government is under pressure and services are stretched due to the government's open door policy combined with reduced funding. UKIP will change this and put people first.

We want to keep the National Health Service free and oppose Labour and Conservative attempts to privatise it. UKIP will prevent developers from concreting over the countryside, protect our pensioners, look after our veterans and help our young people seeking work. Something must be done.

Millions of people have voted for UKIP in recent elections and we now have councillors all around the country - improving democracy in their local government, saving taxpayers' money, rolling up their sleeves, working hard and serving the people.

You can be confident that if you vote UKIP, you'll get UKIP. We are the only party being honest about immigration, jobs and housing; the only party offering a real alternative.

UKIP

@UKIP

# Labour betrayed working people

**UKIP will bring back control of our borders and end the government's policy of open door immigration**

“ The huge increase in migrants over the last decade was in part due to a politically motivated attempt by ministers to radically change the country... Labour's relaxation of controls was a deliberate plan to 'open up the UK to mass migration', but ministers were nervous and reluctant to discuss such a move publicly for fear it would alienate its core working class vote. ”

# Pressure on services

Cameron's pledge to cut immigration to the "tens of thousands" lies in tatters after the Office of National Statistics reveals net migration in the year to June 2015 is up 32% at a record 336,000. This has added unsustainable pressure on local housing, health, education and welfare services.

**The UK is borrowing money to give away on Foreign Aid**

The UK currently gives away around £11 billion per year in foreign aid. Much of this money is wasted and following the 2015 Autumn Review is set to rise to £14 billion per year by 2019/20.

This means the UK is set to spend more in foreign countries than it spends on the Home Office (£10.7 billion in 2015/6) which funds police, immigration control and counter-terrorism in the UK.

# Green spaces under attack

“Vast swathes of the countryside will have to be sacrificed to build new homes for immigrants... migrants accounted for almost half of the housing boom and 100,000 new homes a year will be needed to accommodate them”.

**I'M VOTING**

**UKIP**

**NO MORE LEAFLETS, THANK YOU**

# What UKIP has achieved

## UKIP's no whip policy is enabling our Councillors to represent you, not party politics.

UKIP now has more than 500 Councillors nationwide and took control of Thanet District Council in 2015, UKIP and Independent Councillors now lead Mansfield District Council, which was previously controlled by Labour.

### UKIP believes that:

- Council tax should be as low as possible whilst protecting essential services
- Immigration must be controlled to relieve pressure on our health, education, housing, police and welfare services
- Green spaces should be protected - we oppose excessive housing development, wind farms and HS2
- Local homes should be for local people and veterans first
- Councils should cut highly paid council executives, not front-line staff and services
- Giving real decision-making to local communities
- Money for local services, not the EU, foreign aid and foreign wars

# UKIP in Local Government

## Putting communities back in charge

UKIP Councillors are already making a big difference. Where we hold the balance of power such as in Norfolk and Cambridgeshire, UKIP Councillors are ensuring that communities are listened to by moving governance of Councils to more democratic systems.

We refuse to be dictated to by the 'politically correct' and will always stand up for local people and common sense rather than toeing the party line. This is often a shock for politicians from the old parties, but is the 'shot in the arm' that our Councils need.

## UKIP councillors work harder

Noticeable differences that residents have commented on are that UKIP councillors seem to be more practical and work harder than old party politicians. Whether it is cleaning up dog mess and litter from the streets, removing graffiti,

patrolling the streets when the police are not available, cleaning public toilets or gritting pavements, UKIP councillors roll up their sleeves and get on with the job. In council chambers, UKIP councillors are fighting for older people's services and accommodation, fighting to save our post offices, protecting green spaces, opposing parking charges and road tolls and fighting against wind farms and overbearing large housing estates.

## Standing up for local people

UKIP councillors believe in putting the residents first. We believe in local referenda and the ability of local people to put their communities first. UKIP's NO Whip policy ensures that your UKIP Councillor votes the way the community needs rather than the way the Party demands. UKIP believes in a hands on approach and are there for you when you need them.

Cllr Pete Reeve says UKIP Councillors are a breath of fresh air, we are motivated to work on behalf of our

communities, we believe passionately in finding alternative ways to deliver local services while keeping tax as low as possible and bringing back democracy to local people. Residents vote UKIP because they know they will get a hard working, dedicated Councillor who wants to make a difference.

**Cllr Pete Reeve**  
UKIP Local Government Spokesman

# What your UKIP Councillors will work for:

## UKIP Councillors

Working hard for you all year round

### Environment, Planning and Housing:

Reduce the pressure on housing by ending open door immigration. Oppose the bedroom tax, but provide incentives to re-use empty homes. Protect our green spaces by directing new housing and business developments to brown field sites. Stop preferential treatment to special groups such as travellers - rules should apply equally to us all. UKIP protect food security and farming.

### Local People and Veterans first

UKIP ensure that local people and veterans are prioritised first for social housing

### Education:

Improve access to quality local education and create more grammar schools and technical skills colleges, encourage vocational apprenticeships, give parents the right to choose where their children go to school, protect rural schools and support home schooling.

### Democracy:

Introduce binding local planning referendums on major decisions, such as out-of-town or large scale supermarket developments, wind turbines, incinerators, solar farms, major housing developments and transport schemes like HS2. UKIP will introduce where possible the committee-based system of local government as we feel it's far more democratic.

### Economy and Enterprise:

Reduce tax and business costs to stimulate the local economy. Make it easier for smaller and local businesses to tender for local authority contracts.

### Public Health & Social Care:

Put local communities at the heart of health care. Oppose health tourism and cuts to front-line doctors, surgeons, dentists and nurses, but reduce the number of managers and executives. UKIP also support dementia care, mental health etc. UKIP also supports better funding of services to the lost vulnerable in our community especially dementia care, mental health care and disability support.

### Transport and Roads:

Improve road maintenance as a priority. Mending potholes should take priority over council vanity schemes. Upgrade public transport, especially maintaining and reinstating rural bus routes that many communities depend on and which feed town - centre businesses and markets. Increase provision of free parking to regenerate town centres and boost business. Oppose any introduction of tolling on roads and motorways.

# UKIP PRIORITIES

1.

### Prioritising services for local people

We must end benefit and health tourism and give priority to local people for housing, education, health and social services. In planning, the local people's opinions should be respected and not overruled.

**2. Moving government closer to the people** We will provide incentives to encourage enterprise, attract jobs and reinvigorate town centres and local high streets. We will continue to fight to save our countryside and Green Spaces and we will ensure local people and veterans are prioritised for social housing. UKIP believe in real devolution and real local decision making. We are concerned that this Governments Public Sector Reform Agenda undermines local communities instead of empowering them.

**3. Fighting crime and anti-social behaviour** Britain's communities suffer from an unacceptable level of crime and anti-social behaviour. We should overhaul the system to make sentences meaningful, rehabilitate offenders, deport foreign criminals, free up the police from excessive form-filling and tackle nuisance neighbours and anti-social behaviour.

**4. Spending our money at home** our membership of the European Union costs £55million per day, every day. The three old parties think that is a good use of your money. Whilst at home care for the elderly and most vulnerable is being reduced, services are being cut, health, policing and roads are being run down. UKIP believes this money should be spent at home on the people's priorities, not on the EU.

**5. Regain control over development** Our housing, education, health and social services cannot cope with constantly rising numbers of people coming to live and work here. The government is now riding rough-shod over local people's wishes with mass house building that has become a 'Developers' Charter' without the new services and infrastructure to go with it.

**6. Local referendums** It's time to bring power back to the people. So major decisions should be subject to binding local referenda if the people demand it. On the petition of 5% of the population within 3 months major planning and service provision decisions should be put to a local vote.

# Empowering local people

## Here are just some of the ways we will save your money:

Slash excessive pay deals for senior council staff

Cut the councils' advertising and self-promotion budgets

Build partnerships to reduce costs

Abolish non-essential and politically-correct jobs and red tape

Leave the EU and save £55 million every day

Drop the EU Landfill Directive to cut refuse disposal costs

Control immigration to ease the burden on local services

Close unnecessary central government departments and quangos

End wasteful EU and UK subsidies to 'renewable energy scams', such as wind turbines and solar farms

Require all visitors to show adequate health insurance at the port of entry into the UK

Introduce democratically elected health boards

Reduce bureaucracy in the education system

Ensure unused state owned property and MOD land is either sold or used for the good of the community

Oppose EU directives adding artificial and detrimental costs

## Culture and Heritage:

Supporting our national heritage, defend public libraries and develop a local buildings listing programme to allow communities to protect buildings of local importance.

## Safer Communities:

Keep real police officers on the beat and stop the scrapping of front-line police jobs. Adopt a zero tolerance approach to anti-social behaviour and crack down on nuisance neighbours.

## Energise the voluntary sector:

UKIP believes that the best decisions are decisions that are made locally. Community groups and volunteers are often better placed to run facilities and services than the State. By ensuring that these groups are supported, empowered and energised much more can be achieved.

# Why We Are Voting UKIP

- UKIP Councillors are community champions. Whether it is looking after the elderly and vulnerable, winter gritting, volunteering to keep libraries open, cleaning public toilets or litter picks. Our Councillors roll up their sleeves and get the job done. We get involved in our communities to make a difference to everyday lives.
- UKIP Councillors fight against over development. Protecting our countryside and green spaces is a priority. Development only works if it is wanted locally and adequate provision is made for infrastructure including roads, transport, schools, doctors, dentists and community facilities.
- UKIP believes in keeping tax as low as possible, whilst protecting essential front line services.
- UKIP believe in putting local people and veterans first and putting local communities back in control of what happens in your local area.
- UKIP are here to serve YOU
