

# NORTHERN BEACHES HOSPITAL STAFF PETITION

April 2017

Over three years of talks since the NSW Government announced the replacement of Manly and Mona Vale Hospital services with a new private hospital run by Healthscope, and questions remain as to what this means to us.

## We need answers to the following questions (and more):

1. How will the Ministry/LHD ensure the Award conditions currently worked under are protected and enforceable once the new hospital opens for all transferring employees?
2. How will the Ministry/LHD ensure the additional commitments they've made to staff, including job guarantees and the transfer of policy matters, are enforceable?
3. How can the Ministry/LHD honour its promise that employees won't be obliged to transfer if the Regulation barring redundancies is applied to Manly and Mona Vale employees?
4. What will the value of the promised transfer payment to staff be for those transferring to the new hospital?
5. When will the job matching results be released and how much time will employees have before deciding to accept a transfer to the new hospital?

**We call upon Deborah Latta, Healthscope Northern Beaches Hospital Project Manager, and Brad Hazzard, the new Minister for Health to meet with unions and workplace representatives from Manly and Mona Vale Hospitals before the end of April to provide answers to employees' questions.**
