*Before the Flood*, presented by National Geographic, features Leonardo DiCaprio on a journey as a United Nations Messenger of Peace, traveling to five continents and the Arctic to witness

climate change firsthand—a riveting account of the dramatic changes now occurring. With unprecedented access to thought leaders around the world, DiCaprio searches for hope in a rising tide of catastrophic news.

*"We need everyone to demand bold action from their political leaders and to elect representatives who*

*have their best interests at heart, not the interests of corporations to perpetuate a cycle of greed and destruction," says DiCaprio. "This documentary shows how interconnected the fate of all humanity is – but also the power we all possess as individuals to build a better future for our planet."*
