

## Angela Hansen, Project Manager, DPR Construction

### Why do you wish to join the Board of Directors of the San Diego Green Building Council?

I am passionate about transforming the building and construction industry to reduce or eliminate our impact on the environment. I feel that the best way to do this is to work locally within our San Diego communities.

Some specific goals that I have are:

- To help grow the SD Women in Green committee and provide additional education and mentor-ship opportunities for women in the industry.
- Continue to expand media and promotion of SDGBC on the local level
- Potentially add a committee for support of the goals of International WELL Building Institute
- Increase outreach to local schools to expand sustainability education for our youth.

### Summary of your professional qualifications, knowledge, and experience most relevant to SDGBC. Also indicate any senior management and executive level experience.

I have worked in the building construction industry for 20 years with DPR Construction, who as a company has been a supporter and advocate for USGBC and sustainability. My construction project experience includes both new construction and renovation of fast-track office, laboratory, and healthcare projects. My current role is Senior Project Manager and many of the projects teams I lead have LEED Certification or sustainability goals and I enjoy collaborating with others to create healthy spaces for working, living and healing. I have a BS in Architecture from Cal Poly with education in sustainable design practices.

### Availability and willingness to participate in resource development. This may take many forms, including direct sponsorship, helping secure funding, or otherwise opening doors to corporate, governmental and charitable sources.

I am available and willing to help in any way needed.

### Other expertise, experience and resources you bring to the Board of Directors.

DPR Construction has been a long-time supporter of USGBC and we want to remain involved and continue to actively support efforts at the local level.

### Experience and any current engagement with other nonprofit organizations and governance.

I am not currently serving as an officer with any other organizations. As a working mother, my previous experience with leadership in non-profits is primarily within youth organizations such as Boy Scouts, Girl Scouts, PL Soccer Association, and local school groups. Generally, I have supported these organizations in either Secretary or Treasurer positions, but I have also served in other roles as well.

### Affiliations, memberships, and accreditations that may be valuable to SDGBC leadership.

I have DBIA certification and have been affiliated with ISPE and ASHE. Besides the work mentioned above with local schools and youth organizations, I also do volunteer work with Surfrider Foundation and other local youth programs.

### Additional thoughts on ways the SDGBC can improve attainment of our vision.

SDGBC Vision: Our buildings and our communities will regenerate and sustain the health and vitality of all life within a generation.

I support the continued education and advocacy that SDGBC provides and would like to continue to see SDGBC promote successes in sustainable buildings and communities and educate people about what they can do to get involved.

**Experience Focus:** General commercial development

**Strengths:** Active Community Volunteer

Committee Interest: Women in Green

Ambassador, Advocate, or Asker: Ambassador
