

## Energy Analyst

### JOB DESCRIPTION

g.r.e.g. Consulting, Inc. is seeking an Energy Analyst to assist with energy modeling for Title 24, LEED, and GreenPoint Rated projects throughout California. The projects predominantly consist of high-rise and low-rise multifamily projects but also include commercial projects.

### FIRM OVERVIEW

g.r.e.g. Consulting, Inc. is a full-service energy and sustainability consulting firm. We provide consulting and third-party inspections to support code compliance, green program certification, third party field testing and building commissioning. Our client base is made up of Affordable Housing and Market Rate developers and architects, specializing in the multifamily and mixed-use sector. High-rise multifamily and low-rise residential buildings are our specialty.

g.r.e.g. Consulting, Inc. prides itself on its track record of consistently delivering best in class expertise, consulting and project support to the development, design, and construction industry.

### RESPONSIBILITIES INCLUDE:

#### Professional development

- Applicant is expected to learn, understand, and deliver on all energy modeling and related services offered by g.r.e.g. Consulting, Inc.

Applicant is expected to manage and perform energy compliance modeling and documentation for:

- CA Title 24
- Green Programs, such as LEED, and GreenPoint Rated
- Other energy efficiency programs such as CTCAC, and CUAC
- Experience with ASHRAE 90.1 Appendix G is a plus

Registry uploads and coordination with HERS rater

- CalCerts and CHEERS Registry

### QUALIFICATIONS

- Bachelor's degree in related field (e.g., engineering or architecture).
- Proficiency reading construction blueprints and plans and translating these into energy modeling software.
- Experience with CA Title 24 Part 6 Energy Code and Modeling requirements.

- Desired:
  - Experience with ASHRAE 90.1 Appendix G Energy Code requirements
  - Experience with LEED Energy Analysis and Submittal Documentation

## **SOFTWARE**

The ideal candidate will have experience with software such as:

- Integrated Energy Solution (IESVE)
- CBECC-Com & CBECC-Res
- EnergyPro
- AutoCAD / Revit
- Proficiency in Excel, Word, and Outlook

## **INTERPERSONAL SKILLS**

- Applicant is expected to have strong analytical and problem-solving skills and must be able to work independently.
- Applicant is expected to have strong interpersonal skills, with the ability to motivate and supervise internal and external teams, encouraging the highest quality of work while maintaining a positive working environment.
- Applicant is expected to be highly organized, have a strong attention to detail, and possess the judgment to prioritize competing—often deadline-driven—demands.
- Professional and respectful demeanor, with the ability to represent the company in a variety of environments, and with a diverse mix of stakeholders.
- Applicant is expected to have a passion for sustainability and realizing a carbon-free future.
