To protect yourself and others, please use our takeout or delivery services instead of dining in if you have symptoms of COVID-19 or are a person at high-risk. Thank you.

People at high-risk include: those 65 years and older, those who live in senior living facilities, those of any age with underlying medical conditions, such as chronic lung disease, asthma, heart conditions, severe obesity, chronic kidney disease, liver disease, or are immunocompromised (undergoing cancer treatment, have had a bone marrow or organ transplant, have immune deficiencies, people living with HIV or AIDS, those who smoke, and those who have used medicines for long periods of time, such as corticosteroids or other medicines known to weaken the immune system).
