

Join One of Our Teams!

Veterinarians, veterinary nurses, support staff and members of the public; all who care about climate change and animals are welcome to volunteer.

Register your interest [here](#).

Climate Smart Program	Develop and implement our Climate Smart sustainability program for veterinary clinics and hospitals Australia-wide.
Policy Team	Develop strategies to encourage our political leaders across the spectrum to take urgent steps towards a safe climate.
Writing Team	Be VfCA's voice! Work across our spectrum of projects and activities by writing policy submissions, media articles, political correspondence and marketing materials with VfCA.
Seminars and Events	Arrange online seminars from expert speakers to enhance understanding of the impacts of climate change on animals and how we can all help halt climate change.
Industry Team	Veterinary professionals effecting powerful change across the animal care sector via animal drug and food companies, suppliers, supply chains, buying groups, corporates, banks and insurance companies.
Universities Team	Organise student and staff events across our vet schools nationally, presenting panels of experts. Introduce to the Australian veterinary curriculum an understanding of climate change and its impacts.
Rural Team	Clinical and government veterinarians advocating for climate action in the rural and regional animal care landscape.
Zoos and Allied Animal Orgs Team	Climate change is an animal welfare issue! Work with our network of Zoos and Aquariums, RSPCA, Animals Australia, WIRES, and Arts institutions to deepen their understanding of the impacts of climate change on animals, implement internal climate policies, and influence the Australian public to advocate for urgent climate action.
Fundraising Team	Funds allow us to employ more staff and strengthen our movement.
Australian Veterinary Association	VfCA is working closely with the AVA across its 20 Special Interest Groups, and its Climate action Working Group, deepening its awareness of and response to the climate crisis.
Former Chief Veterinary Officers et al	Approx 30 Former Chief Veterinary Officers and senior government vets, widely experienced in scientific research, policy, and government relations, use their deep connections to effect change. They write to politicians, organise meetings with local MP's, appear in the media, research Climate Facts and Solutions and link VfCA with government bodies and university deans.
