

Daniel TAYLOR

● CANDIDATE FOR
NORTHWEST WARD

I'm a community journalist and refugee advocate. I'm refusing all donations from property developers and big business, so I can stand up for working class residents. I'll fight against overdevelopment, unfair charges on residents, sell-offs of services, and discrimination.

WHAT I STAND FOR:

- Put childcare, aged care, and other **services back into public hands**
- Stop council from handing power over to property developers
- **Stop unfair rate increases and parking charges.** Tax big business to fund services, not residents
- **Protect and expand our green spaces** like Hosken Reserve. Plan for biodiversity in our creek corridors
- **Support community sports** with new, dedicated facilities and grounds
- Real action on climate change: **Totally divest council from fossil fuels**
- **Fight discrimination and prejudice** against migrants, religious minorities and Aboriginal people
- Expand high-quality public and **affordable housing.** Stop gentrification

HOW-TO-VOTE

Unlike other candidates, I've put property developers and Liberals LAST. Follow this guide to send the strongest message that council should put people before profit:
