

Andrew CHARLES

- CANDIDATE FOR STONY CREEK WARD

I love living in the West with its multicultural and working class heritage. I've served on my kids' school council in West Footscray, was a union delegate and a climate scientist for over a decade.

In this crisis I want to represent workers, students, the unemployed, pensioners, renters, refugees, migrants, everyone left behind. Council should focus on delivering services to people who need them most - not be driven by business interests or developers.

WHAT I STAND FOR:

- **Reverse privatisation** of council aged care
- Mandate affordable and **public housing in new developments**
- **Rate relief for households** and pensioners in financial stress
- **Protect green spaces** from developer greed
- Action on the climate emergency: **Invest in green jobs** like revegetating our waterways
- Support **Aboriginal rights; refugees and LGBTIQ+ equality**
- Create a permanent arts precinct centred on Footscray Community Arts Centre to **support the grassroots arts scene**
- Increase funding for **neighborhood centres, maternal health and community sport**
