

The Virginia First Foundation, in conjunction with the residents of the City of Richmond & the citizens of the Commonwealth of Virginia who care about the safety and well-being of those living in our capitol city, do hereby call on Mayor Levar Stoney to retract his Mayoral Directive issued on February 6, 2017, effectively declaring the capitol city of Richmond as a sanctuary city for illegal immigrants. We stand with the city residents to ensure that their community bears no undue hardships due to financial strains and safety concerns from the attraction of those here illegally.
