The Windham County Action Network (WeCAN) is a centralized location to find out about upcoming events and volunteer opportunities among Windham County's social justice and environmental organizations. Think of us as the "211 of Grassroots Organizations in Windham County." Our goal is to make communication streamlined so that it is EASY for people to step up and take action. If we all plug in where we're passionate, we'll be a powerful force for good.

**Schedule of talks and activities available at:
