

12 OR OLDER? YOU HAVE THE RIGHT TO ACCESS PrEP!

**No Parental
Consent Required**

DIVISION OF
ADOLESCENT
AND YOUNG
ADULT MEDICINE

What is PrEP?

PrEP is Pre-Exposure Prophylaxis. It is a pill taken daily to prevent HIV infection. You take PrEP before exposure to HIV (i.e. before sex)

Is PrEP for Me?

PrEP is safe, and an option for anyone that is HIV-Negative

You may want to consider PrEP if:

- You are unaware of the HIV status of your sexual partners
- You don't always use condoms
- You have sex while drunk or on drugs
- You share needles

BENEFITS OF PREP NAVIGATION AT THE DAYAM
