Dear Mr Rocco

The LNP has an ambitious plan to stimulate the economy, create a decade of secure jobs and lead Queensland out of this recession.

Our vision is to make Queensland the economic powerhouse of Australia once again, the best place to get a job, get ahead and raise a family.

We will start work on the drought busting New Bradfield Scheme, a major new economic driver for Queensland, four-lane the Bruce Highway, invest in new infrastructure to create more jobs and stimulate the economy and we will guarantee no new taxes.

It's disappointing that Labor have broken yet another election commitment which was promised to the Western Rivers Alliance. The Palaszczuk Labor Government's half-baked Channel Country consultation on Christmas-eve last year was appalling.

In contrast, the previous LNP Government consulted through the Western Rivers Advisory Panel, which included local government, agriculture, natural resource management, indigenous, environmental, resources and scientific representatives.

The LNP created a plan to strike a balance between the protection of the environment and creating local jobs. Labor's bungled attempt to amend the management framework has only created more uncertainty without any environmental outcome.

A future LNP Government is committed to working with the Western Rivers Alliance to ensure the strong protections introduced previously by the LNP are maintained.

Yours sincerely
