

Service Charter

Our Service Charter describes the values that guide WAT's activities, the service standards that can be expected, and what to do if you are not satisfied that WAT has upheld these standards.

WAT's Values

WAT undertakes that all Board and Staff Members will uphold and embody the following values in their work. These values demonstrate WAT's commitment to integrity and professional ethics.

We Are Accountable

We take responsibility for our actions and their outcomes. We are openly accountable to our funding partners and the community we serve. We report regularly on our performance, clearly describing and evaluating our programs. Our Board of management is available for people to contact directly.

We Build Community

We share skills, talents, ideas and resources to support the work of others. Our relationships with our clients and stakeholders demonstrate respect, responsiveness, fairness and equity. Our policies, programs and procedures are straightforward and easily understood, and embody the high standard of service our clients can expect. We encourage and facilitate the participation of a range of clients, reflecting the diversity of the Australian community. We encourage and act on feedback and consult with clients and stakeholders on a regular basis.

We Are Open

We are receptive to new and diverse ideas and approaches. WAT encourages and supports creativity and innovation in the development of our programs and experimentation with new ideas. We continuously learn from experience to improve our programs and to provide best possible outcomes. We actively work towards increasing opportunities for the Tasmanian screen community.

We Are Resourceful

We make intelligent and creative use of limited resources. The implementation and ongoing reviews of WAT's Business and Strategic Plan maximises the value of resources available for delivering services to the Tasmanian community.
