Cameron Peak Fire

- Fire began on August 13 and was 100% contained on December 2.
- It became the largest fire in Colorado history, burning 208,913 acres.
- 10 Incident Management Teams supported suppression efforts.
- Roughly 122 miles of trails, 41 miles “severely burned.”
- Bridge damage still being assessed

Crowdfunding campaign

Goal - \$25,000

- Situation “beyond normal”
- Additional labor
- Cost of custom bridge lumber

Raised over - \$47,000

- Selected GoFundMe
- Six-week program
- Reached the goal after 14 days
- 345 donors
- 34 Colorado cities
- Fifteen states
