

## How To Check Your Profile and Change Your email Address

On the Home page, click on your name link that shows above the Public Profile at the right side of the screen:

This will bring up the following screen. (You will need to scroll down quite far to get to the email address part.)

This screen includes a number of important settings: by Unchecking the receive emails box, you can stop any emails coming from the Wisconsin Grassroots Network – BUT remember, this would include things like receipts for ticket purchases and donations!

You can also update your address and phone numbers, if you have elected to share that information with us.

You can also use this screen to reset your password.
