

The purpose of the proposed changes is to replace the two current national bodies and replace them with one body, called the National Assembly. Its membership will be delegates from the local groups/sections, thus clarifying the nature of the association as a group-based grassroots campaigning body.

The officers will be chosen from these delegates.

Based on the current 2017 constitution :

1. the changes are highlighted;
2. the main clause numbers are kept as is, though sub-clauses may be added or subtracted.
