

I was thinking about us getting back on track and if possible when we meet like that if there was sufficient time for us to have an open mike at the end for people to offer through their opinion and feelings, some ideas and feed back to help us maintain a direction! Like raise issues such as human rights and homelessness, social security, welsh financial institute, and hunger amongst those using food bank in Pembrokeshire as children! The cross party merger to achieve independant state and obviously an administration! The rights to bear arms and crime wave verses human rights and a proper sense of perspective through training and education, therapy in some cases!? Elicit from those attending and gain the insight so as we can tailor our policies and take a stronger stance and be most definitely democratic and in touch with our electorate! Probably missed something here! Yes let us get to address the real or more pressing issues and ask for smother running through-out the groups so as we can make swifter progress as it seems time can be of the essence!
