

A National Coalition of Unstoppable Moms
Empowered Moms, Healthy Kids

June 8, 2019

Dear Governor Gavin Newsom,

I am a mom and founder of Moms Across America (MAA), an organization with a national network reaching millions of people on social media, with our largest supporter base in California. Our mission is to educate and empower mothers and others with actions and solutions to create healthy communities. Moms Across America applauds your efforts to focus on child welfare.

We would like to know if you support health choices and medical freedom or if you support vaccine mandates and the transfer of parental rights to the government? We ask this for many reasons, below are four of them.

1. SB 276 will allow bureaucrats to decide if our children should receive vaccinations or not. We feel it is un-American to require that children or adults get vaccines against their will. We believe our body is our body and the government should stay out of the medical decisions that a parent or adult makes with their doctor's guidance. This is particularly important when that government is filled with elected officials who have been shown to be [heavily funded by pharmaceutical companies](#).
2. Recent science has shown that vaccines contain [glyphosate weed killer](#) (which gets in through the GMO ingredients or gelatin made from pigs that eat GMOs or grains sprayed with glyphosate) which has been [shown to be carcinogenic](#), [cause liver disease](#), is a known [neurotoxin](#), and potentiates the harmful impact of other toxins such as aluminum. An American baby will receive [4,925 micrograms of aluminum in their vaccines by age 18 months](#).
3. According to [Kaiser Permanente](#) 10-15% of the Caucasian population, 25% of Hispanic, and 1 out of 3 Chinese women have shown to have a mutated MTHFR gene. [Dr. Isabella Wentz](#) has stated that the presence of this gene can make it more difficult for the body to detoxify toxins. Toxins such as [mercury, aluminum, and Polysorbate 80](#) and [glyphosate](#) weed killer are in vaccines.
4. The CDC recommended schedule now requires [16 vaccines in 72 doses by 18 years old](#). A 6-month-old receives 8 diseases in one sitting! We feel this is far too many for a small body whose liver and kidneys are not fully developed and, therefore, unable to detoxify!

We hope you understand, Governor Newsom, that we cannot allow Big Pharma's vaccine manufacturers to continue to operate without accountability for the damage their products are causing. Over [4 billion dollars has been paid out](#) from a special government court system for vaccine damage since the [1986 National Vaccine Injury Act](#) made vaccine manufacturers not liable for their products. We believe that if a car company is liable for faulty products, a vaccine company should be as well. An overwhelming portion of an entire generation of children are being harmed by the toxins and number of vaccines in America and it must stop.

We are not anti-vaccine - we are simply anti-poison, anti-harm, and anti-corporate control over our government and our rights.

We agree that, as you said, **“People’s lives, freedom, security, the water we drink, the air we breathe — they all hang in the balance. The country is watching us. The world is waiting on us.”**

You spoke up for women’s reproductive rights when you said, **“In the absence of federal leadership on this issue, states must step up and put in place their own protections – both in statute and in their state constitutions, and through the expansion of family planning and education – to defend every American's right to reproductive freedom,”** You also wrote. **“Roe is settled law, but newly enacted and clearly unconstitutional laws in a handful of states compel our states to act now to reaffirm long standing commitments to safeguard the fundamental rights of women.”**

Will you do the same for medical freedom, our children’s and our own bodies?

We ask for you to be clear that the government should stay out of parental and medical decisions and that vaccine companies should be liable for vaccine damage. Will you respond to us and let us know if you will be vocal about supporting health choices and medical freedom?

Thank you!

With gratitude and appreciation,

Zen Honeycutt
