

The COVID-19 Vaccines Do Not Benefit Public Health

Data Sheet and Request to Our Elected Officials

We request that you review this study by Kyle A. Beattie entitled [Worldwide Bayesian Causal Impact Analysis of Vaccine Administration on Deaths and Cases Associated with COVID-19: A Big Data Analysis of 145 Countries](#) (the PDF version is [here](#)).*

The study found that the **COVID vaccines cause more COVID cases per million** (+38% in the US) and **more deaths per million associated with COVID** (+31% in the US).

The abstract says:

*The statistically significant and overwhelmingly positive causal impact after vaccine deployment on the dependent variables total deaths and total cases per million **should be highly problematic for policymakers**. They indicate a marked increase in both COVID-19 related cases and death due directly to a vaccine deployment that was initially sold to the public as the “key to gain back our freedoms.” The effect of vaccines on total cases per million and its low positive association with total vaccinations per hundred signifies a limited impact of vaccines on lowering COVID-19 associated cases. These results should **encourage local policymakers to make policy decisions based on data**, not narrative, and local conditions, not global or national mandates. These results should also encourage policymakers to look for other avenues out of the pandemic aside from mass vaccination campaigns.*

In other words, we were and are being lied to by vaccine manufacturers (**who are making billions**) about the efficacy of the COVID vaccine\$.

The COVID-19 vaccines are making our public situation worse, not better. This is why we are not getting ourselves out of the hole. But pharmaceutical profits are soaring!

This is hardly the first study to reach those conclusions. All these studies independently came to the same conclusion — the more you vaccinate, the worse things get.

1. **The Lyons-Weiler paper**
2. **The Harvard study**
3. **The German study**
4. **The Denmark study** (which shows Dr. James was right; you have to boost every 30 days to maintain protection.
5. **German government data** (this is from The Expose)
6. **80% of the COVID deaths in the UK are vaccinated**

The COVID-19 vaccine is NOT working. It does not prevent transmission, contraction, or death. It causes more harm than good.

*The above data and resources are from **Steven Kirsh**.

Therefore, the COVID vaccine must not be mandated or permitted an FDA approval, and the Emergency Use authorization must be revoked immediately.

- *As a matter of public safety, we request that our elected officials discontinue any mandate, encouragement, or requirement of vaccine mandates for any county entities or public groups.*

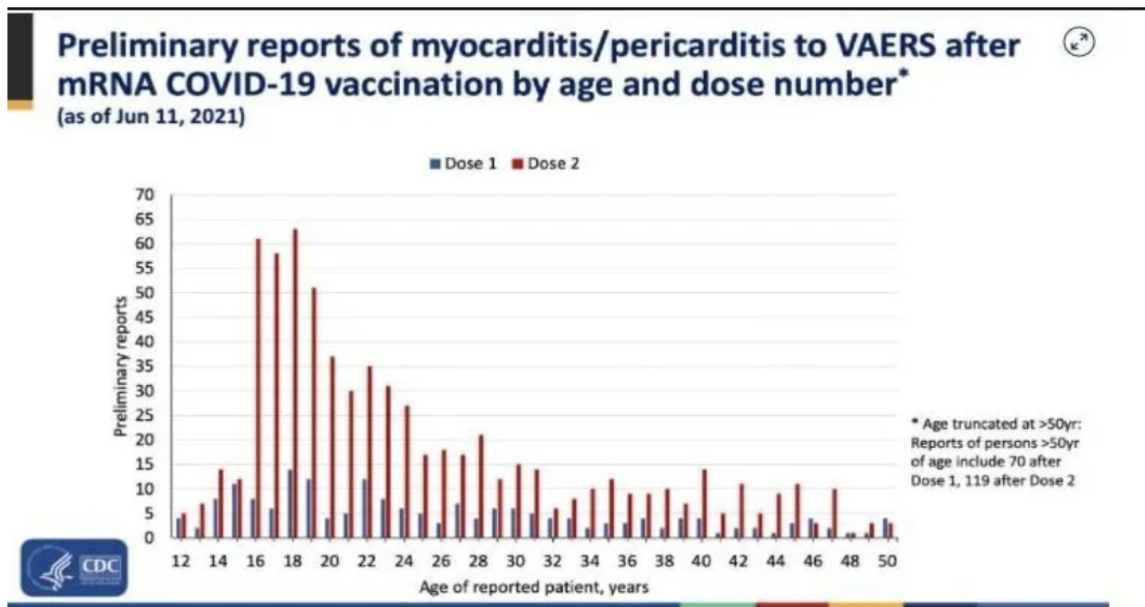

Pharmaceutical commercials are misleading the public on mainstream media. Advertising prescription drugs aimed directly at the public is **prohibited** in most countries, including Canada.

We request that our elected officials propose legislation to prevent pharmaceutical commercials on US television.

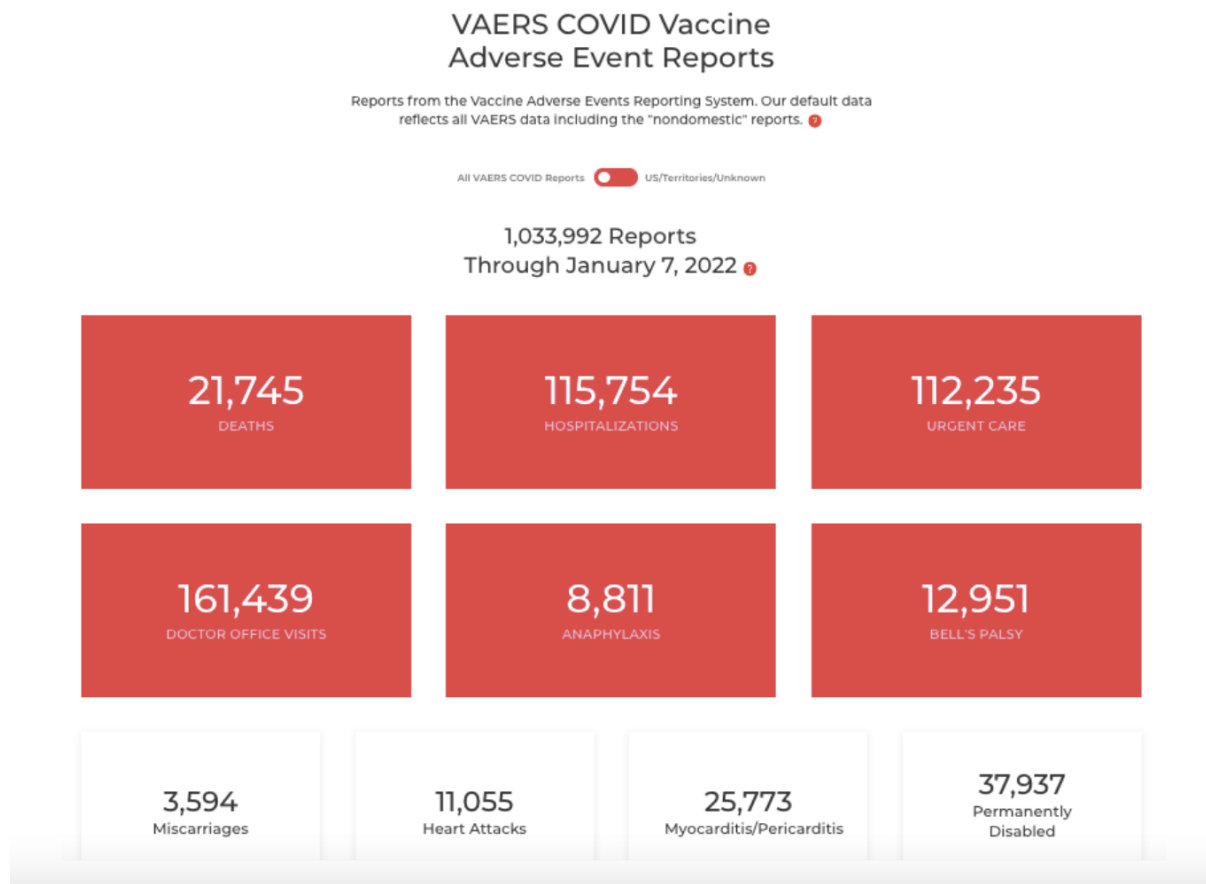

Our children are being brainwashed into believing that their bodies and immune system are deficient, that they must have a pharmaceutical injection (which contains toxins) to survive.

- *We ask you to stop allowing or encouraging vaccine clinics in schools.*

There must be a separation of pharmaceutical profiteering and our educational system. No amount of money given to the schools will ever justify even one case of myocarditis that harms a child or early death. Not even one.

Israel is the **MOST highly vaccinated** country per capita.

COVID-19 vaccination doses administered per 100 people, Jan 15, 2021

Total number of vaccination doses administered per 100 people in the total population. This is counted as a single dose, and may not equal the total number of people vaccinated, depending on the specific dose regime (e.g. people receive multiple doses).

i24NEWS ■ January 13, 2022, 04:14 AM ■ latest revision January 13, 2022, 04:26 AM

🕒 2 min read

Population of Israel 2020 8,864,305

Mexico is the **LEAST vaccinated** country per capita

Population of Mexico 2020 128,932,753

14 X higher than Israel

Israel currently has a **17.48 X HIGHER** rate of COVID cases per capita than Mexico despite being the MOST vaccinated country.

The COVID vaccine is not working to prevent transmission of the virus. Therefore mandating the vaccine to prevent transmission or contraction is invalid and does more harm than good.

We ask you to watch [Senator Ron Johnson's COVID: A Second Opinion Hearing](#) on Jan 24, 2022, to learn more, put out a statement of support, and take action.

Thank you,
