BEYOND THE BELL

Beyond the Bell works to ensure that young people in Milwaukee are engaged in high-quality out-of-school time opportunities. The collaborative of more than 40 youth-serving agencies, funders and policy makers coordinates capacity building within the sector to promote access to opportunities, improve program quality, share data, and align policies and funding. The initiative currently focuses on programs and services for youth ages 12-18, a critical age group that is significantly under-served in Milwaukee and nationwide. Learn more at beyondthebellmke.org!
