

# Regeneration of Canbury Business Park

DEVELOPING STYLE

## The team

Kingston based developer CNM Estates has assembled a world class team with local, national and international experience with ideas merged to create a new amazing quarter in this underused, important town centre location.

Indigo is one of the UK's largest independent planning consultancies. We take a great deal of time to understand the communities and local authorities that we work with. Indigo works with broad teams to engage stakeholders, assemble all the right information and negotiate with statutory bodies, seeking a result that works for all parties.

CJCT Architects is one of the UK's leading Architecture & Interior Design practices with a 30 year heritage and reputation for delivering quality, sustainable and award-winning design across all building sectors.

Your Shout undertakes professional community consultation for the built environment. We are committed to strengthening relationships between land owners, communities and local councillors.

Caneparo Associates is an independent transport planning and highway design consultancy based in central London and specialising in development planning work across the UK.

Caneparo Associates was founded in 2016 and provides transport planning and highway design services to both the public and private sector.

In Outerspace the overall objective is to create solutions that achieve a sense of belonging: to their time; their place and their community. We produce designs that are contemporary in style and technology; respond to their physical context and genuinely consider and engage the people that will use the final scheme.

Our approach looks to balance the needs of people and the needs of bio-diversity:

Its 'human-nature' to Outerspace. This balance is present in everything we do, it's our key objective in designing public realm across the sectors.

We are the UK's leading and most diverse real estate advisory business. Headquartered in London, we have 1,500 skilled and experienced staff in 12 offices around the UK and in Ireland.

With our in-depth understanding of the market, we work with private businesses and the public sector across the whole real estate lifecycle. We advise on some of the largest real estate projects in the UK and across Europe, from strategy advice, to construction, to transaction, to the management of assets.
