- E. Cost or Price Analysis
1. Contractor shall establish standards for the performance of cost or price analysis.
 2. Contractor shall perform a cost or price analysis in connection with every procurement action, including contract modifications to determine that the expenditure is reasonable. The method and degree of analysis depends on the facts surrounding the particular procurement and pricing situation, but at a minimum, the Contractor shall make independent estimates before receiving bids or proposals.
 - a. A cost analysis is necessary when the offeror is required to submit the elements of the estimated cost, when adequate price competition is lacking, and for sole source procurement, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. As part of its bid the offeror shall certify that to the best of its knowledge and belief, the cost data are accurate, complete and current at the time of agreement on price.
 - b. Contracts or modifications negotiated in reliance on such data should provide the awarding agency a right to a price adjustment to exclude any significant sum by which the price was increased because the contractor had submitted data that were not accurate, complete or current as certified.
 - c. Any indirect costs in a proposal must be carefully reviewed to ensure that the costs are not duplicated by direct costs. Indirect costs must be allocated in accordance with an approved cost allocation plan.
 - d. If a bidder proposes to use a subcontractor as part of its proposal, all costs in the proposed subcontract must also be evaluated in the same manner as for the primary proposal.
 - e. Cost analysis must carefully evaluate salaries of owners of sole proprietorships or partnerships who submit offers to ensure that they are in line with the services to be performed.
 3. A price analysis shall be used in all other instances to determine the reasonableness of the proposed contract price. The following price analysis techniques shall be used: i) comparison of proposed prices received; ii) comparison of prior prices received and

Youth Policy Institute Request for Youth WorkSource Bids for 2017

current contract proposed prices for the same or similar requirement; iii) application of rough yardsticks (e.g., dollars per square foot, dollars per placement); iv) comparison with competitive published price lists and published market prices; and v) comparison with agency's independently developed cost estimates.

4. The following cost analysis steps shall be used 1) verify cost or pricing data and evaluate cost elements; 2) evaluate the effect of the offeror's current practices on future costs; 3) compare proposed costs for individual cost elements; 4) verify that offeror's cost submissions are in accordance with cost principles (allowable/allocable); and 5) review to determine that all necessary cost or pricing data have been submitted.
 5. Agreement procurement shall not permit excess program income (for nonprofit and governmental entities) or excess profit (for private for-profit entities). If profit or program income is included in the price, the City or the Contractor shall negotiate profit or program income as a separate element of the price for each contract/subcontract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit or program income, consideration shall be given to:
 - a. The complexity of the work to be performed;
 - b. The risk borne by the contractor;
 - c. The Contractor's investment;
 - d. The amount of subcontracting;
 - e. The quality of the Contractor's record of past performance;
 - f. Industry profit rates in the surrounding geographical area for similar work; and

The selected proposer must be a responsive entity that has submitted a proposal or bid which meets all requirements of the solicitation adequately, which includes responding to the RFP/RFQ within the required time frames, and completing all forms and documents. A responsible entity is one that has been determined to: 1) have a satisfactory record of integrity and business ethics; 2) have a satisfactory performance record; 3) have adequate financial resources to perform the contract or the ability to obtain such resources; 4) be able to comply with the required

 3. Where such advertised bids are obtained, the awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the grantee, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid. No points shall be given for status as a sub-contractor or a contractor with an approved childcare policy within existing delivery systems. However, if a bid results in a tie score, preference may be given to the Contractor or a subcontractor with an approved childcare policy.
 4. Any or all bids may be rejected when it is in the City/Contractor's interest to do so, and such rejections are in accordance with applicable State and local law, rules, and regulations.
- G. Funding Restrictions for High Risk Contracts.
1. Contractor may be considered "high-risk" if an awarding agency determines that the Contractor is otherwise responsible but:
 - a. Has a history of unsatisfactory performance;
 - b. Is not financially stable;
 - c. Has a management system which does not meet the management standards set forth in this part; or
 - d. Has not conformed to terms and conditions of a previously awarded grant or sub-grant.
 2. If the City/Contractor agency determines that a grant or sub-grant will be made to a "high-risk" Contractor or subcontractor, then special funding restrictions that address the "high-risk" status may be included in the contract or subcontract. H. City Code of Conduct

I. Methods of Procurement

- 1. Contractor shall use one of the following methods of procurement, as appropriate for each procurement action. When any purchase is made, it can only be for an allowable cost. Invitations for bids shall clearly set forth all requirements that the bidder must fulfill in order for his bid to be evaluated by the grantee. Complaint process procedures shall be included in each of the following methods of advertised procurement.
 - a. Small Purchase Procedures: Small purchases are made from vendors for goods or services under \$50,000. Following the procedures for small purchase will constitute justification of the procurement method chosen. The requirements are:

<u>Dollar Range of Purchase</u>	<u>Contacts and Method</u>
\$0 to \$24,999	2 documented quotes ¹
\$25,000 - \$50,000	3 written quotes [†]

- (1) Documentation: Each procurement must be documented, as required by federal and state statutes and regulations. For the “2 documented quotes,”

¹ Unless sole source justification exists

Youth Policy Institute Request for Youth WorkSource Bids for 2017

the documentation can include product or service catalogs, current price lists, or telephone contact with the vendors to obtain quotes (i.e., a memorandum that reflects the oral quotations by source and dated and signed by a staff person of the OneSource Center obtaining the bids). Catalogs and price lists should be updated annually.

- (2) For “3 written quotes,” the RFQ must either be provided in writing to the vendors or transmitted as uniformly as possible over the telephone. To be considered, the response must be signed and dated by the vendor responding to the RFQ.
- (3) A cost/price analysis must be conducted prior to purchase. Lowest price is the normal criteria for selecting goods and services. Qualifications of the vendor, availability of the goods or services, service to be provided, quality and location are some additional factors that could influence the procurement. The documentation must contain the basis for vendor selection. If the basis is something other than the price, the Contractor must prepare written documentation describing the additional criteria for selection, its relevance to the need and benefit, and the relative advantage of the offering from the selected vendor. Documentation should be retained as described in the procurement procedures.
- (4) Many governmentally linked subrecipients purchase office supplies and basic office equipment through their central governmental supply house or procurement administration. Items procured for subrecipient use in this manner will be assumed, for the purposes of WIA, to be purchased competitively by the central governmental purchasing agency and to meet the requirements of these regulations. Any item purchased solely for WIA use must be purchased following applicable City Information Bulletins, State Information Notices, City and State Directives, the WIA, and its regulations.

b. Sealed Bids—Formal Advertising

- (1) Contractor shall prepare an Invitation for Bid (IFB) or similar solicitation document that includes full and clear definitions and descriptions of the items to be procured and essential performance criteria, dimensions or specifications. Sealed bids shall be solicited publicly for procurement for a firm-fixed-price contract (lump sum or unit price) or other fixed-price arrangement. Contractor shall distribute the IFB to vendors on established bidders’ lists (if available). Contractor shall publicly advertise the procurement in a local newspaper with Workforce Investment area-wide circulation and shall solicit from an adequate number of organizations, allowing sufficient time before the bid opening to permit adequate responses to the solicitation. Contractor shall notify the bidders of the dispute resolution process. The bids must be received and opened publicly at the time and place stated in the solicitation. Contracts shall be awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price. Contractor shall determine the demonstrated performance and ability of the lowest bidder who meets the technical requirements (for service providers).

Youth Policy Institute Request for Youth WorkSource Bids for 2017

- (2) Contractor reserves the right to reject any or all bids when the bid is non-responsive. However, Contractor must state this in the solicitation and the specific reasons must be fully described and documented in the procurement file. Contractor may award a firm fixed-price or fixed-unit price contract by written notice to the responsible offeror whose bid represents the lowest price and conforms with all of the specifications in the IFB. Contractor shall also provide written notification of the awarding of the contract to the bidders who were not accepted. Contractor shall document the procurement in the procurement file.

c. Competitive Proposals

- (1) Proposals shall normally be conducted with more than one source submitting an offer. Either a fixed-price or a cost-reimbursement contract should be awarded. Contractors shall ensure that they use a documented methodology for technical evaluations and shall award the contract to the responsible offeror whose proposals are most advantageous to the program with price, technical, and other factors considered. Requests for proposals must be formally advertised for all contracts above \$50,000.
- (2) This method is typically used when the nature of the goods or services to be acquired cannot be defined as precisely as required by the sealed bid method; and, specifically, when factors other than price are important in the selection decision.
- (3) The RFP must indicate the scope of work and service area, the method for scoring the proposals, the deadline for receipt, and the dispute process. The various components of the request will be valued and the value assigned should be reasonable in relation to the entire request. The right to reject any or all bids when the bid is not responsive may be reserved by stating it in the solicitation and the specific reasons must be fully described and documented in the procurement file. A method for recording the date and time that proposals were received must be established. This process must ensure that only proposals received in accordance with the date and time specified in the RFP qualify for the evaluation process. A log is an acceptable method for recording date and time of receipt. A cost or a price analysis of the proposals selected for consideration must be conducted.

d. Noncompetitive Proposals – Sole Source

- (1) To conduct a noncompetitive procurement, the criteria established here must be met. Sole source contracts shall be procured through solicitation of a proposal from only one source, the funding of an unsolicited proposal, or, after solicitation of a number of sources, when competition is determined inadequate. All sole source contracts require prior City approval. All sole source procurements must be documented, and the Contractor must have demonstrated performance in supplying the goods or services. Contractor shall minimize the use of sole source procurements to the extent practicable, but in every case, the use of sole source procurements shall be justified and documented.

Youth Policy Institute Request for Youth WorkSource Bids for 2017

- (2) Purchases of goods and services for the general administration of the administrative entity should follow normal business practices to ensure receipt and quality of the goods and services. Procurement by noncompetitive proposals may be used only when the award of a contract is unfeasible under small purchase procedures, sealed bids, or competitive proposals and one of the following circumstances applies:
- (a) The item or service is available only from a single source;
 - (b) The public exigency or emergency need for the item or service does not permit a delay resulting from competitive solicitation and the procurement is for a limited time only;
 - (c) The awarding agency authorizes noncompetitive proposals;
 - (d) After solicitation of a number of sources, competition is determined inadequate;
 - (e) On the Job Training (OJT) contracts, except OJT brokering contracts, which shall be selected competitively, or enrollment of individual customers in classroom training.
 - (i) Individual referral to classroom training and OJT procurements require special considerations. For every procurement from a training provider, school, or employer, a determination of demonstrated performance must be conducted. Prior to the enrollment of any customer, a school or training institution must meet the state requirements for conducting training (Private Post-secondary certification, Department of Health Services approval, business license, etc.). The catalog used for course selection must be updated at least annually and a copy must be retained for documentation. The Individual Service Strategy may be used to document the reasons for selection of the classroom training provider or the OJT employer.
 - (ii) Customers in OJT may not be placed with employers who are debarred by the federal or state government.
 - (iii) Classroom training may be provided by either vendors or subrecipients. The type of organization (community college, adult school, high school, private school, etc.) does not determine the vendor or subrecipient designation. The determination is made based on the relationship between the service provider and the program using the definitions found in the regulations.
 - (iv) When purchasing training from an institution or OJT employer, the demonstrated performance of the vendor must be assured using prior history and documenting the source of the data. The LWIA or subrecipient placing a customer in training will need to ensure access to all

Youth Policy Institute Request for Youth WorkSource Bids for 2017

records regarding the customer. Agreements with vendors and OJT employers must include statements that permit monitoring of the customer's financial and attendance records. For OJT employers the customer's financial records include time sheets, payroll records, and canceled checks. For training provided by vendors, customer's financial records include student loan, grant, and tuition information.

- (v) The formal agreement between the vendor or OJT employer and the SDA or subrecipient must include language to ensure access to the above referenced records by the responsible entities. The responsible entities include the SDA, the subrecipient, the State, the DOL, the Comptroller General of the United States, or any of their duly authorized representatives. The records include any books, documents, papers, and computer data directly pertinent to the records of the customer. The right to the records includes the right to make excerpts, transcripts, and photocopies. The right also includes the reasonable and timely access to personnel for the purpose of interviews and discussions related to the records of the customer.

J. Appeal and Dispute Procedures

1. Contractor shall have protest procedures to handle and resolve disputes relating to their procurements. A protester shall exhaust all administrative remedies with the Contractor before pursuing a protest at a higher level. Notice of appeal rights and procedures must be given to all bidders. WIA bidders who are dissatisfied may file a complaint in accordance with City WIA complaint procedures.
2. The selected bidders are offered contracts after the evaluation and negotiation process is completed. The contracts with subcontractors must contain all provisions set forth in S702K below, and the requirements of 29 CFR Part 97. The provisions listed under Section 627.420(h)(4)(ii) and (iii) are to be included only in applicable agreements. Agreements, with vendors who are not involved with carrying out the program, are not required to contain the clauses in Section 627.420(4). When purchasing material subject to copyright law, the subrecipient must include the copyright provisions in 29 CFR 97.34.
3. Regardless of the amount of the award, all subrecipients shall certify to a Drug Free Workplace. All awards to subrecipients in excess of \$100,000 shall certify that no funds shall be used for lobbying. All contracts and awards to vendors and subrecipients in excess of \$25,000 shall include debarment certifications.

K. RFP/RFQ Procedures

1. It is a City policy to contract for services on the basis of demonstrated competence and reasonable price by obtaining bids or proposals. Before preparing an RFP for the procurement of services, several preliminary activities should be performed including the determination of the City's/Contractor's needs, consulting with contractors and other local governments, and developing an approach to the procurement process.

Youth Policy Institute Request for Youth WorkSource Bids for 2017

Excluding small purchases, the Contractors must justify the procurement method used for each purchase. Once these activities are completed, the development of an RFP can begin.

2. The following guidelines apply to the preparation of written RFPs or RFQs. These provisions apply to this Agreement and to City Contractors who will need to make some modification to the language, which clarifies that the solicitation is from the Contractor and not the City. In the RFP process, cost is usually one of several selection criteria that proposers must address in their proposals. By contrast in the RFQ process, cost becomes a selection criterion only after qualified proposers have been identified from a review of their qualifications. RFQs are usually reserved for the selection of engineers, architects, or other highly specialized, technical providers.
3. The purpose of the guidelines is to present ideas and material that are characteristic of well prepared solicitations. The guidelines are not intended to provide total coverage of any topic. While the guidelines apply generally, exceptional circumstances may call for modifying or excluding one or more of the suggested provisions. In any case, the RFP or RFQ should be tailored to the job that needs to be done. The arrangement, adequacy, clarity, simplicity and appeal of the solicitation document shall remain the responsibility of the administering agency. To be most effective, a solicitation document should be clear and complete but avoid repetition, legalism or extraneous information. RFPs must be publicly advertised.
 - a. Standard RFP Format
 - (1) Cover Page. The cover page should describe briefly the scope of services requested, the format, the issuance date and the deadline of date and time for submission of proposals, and the Contractor contact for further information about the RFP. Include the name, address, telephone number and location of the person to whom the submission is to be made. Exhibit A depicts a sample cover page. If a proposers conference is appropriate, include information on the location, time and date of the event. All RFPs should include a deadline for receipt. Contractors shall have procedures to ensure that only proposals received in accordance with the date and time specified will be reviewed. All RFPs shall include the approximate date of the award notification.
 - (2) Contents. The RFP should contain the following standard items which are discussed below:
 - (a) Introduction

Describe in the RFP the general criteria the Contractor intends to use to evaluate the written responses, and the assigned weight of each criterion.

(c) Proposed evaluation criteria can be complicated by the varying degrees to which the proposals meet, exceed, or fall below the specific requirements of the RFP. Scale the evaluation process to manageable proportions. The more complete and specific the RFP, the better it serves as a standard for measuring and evaluating proposals. Include a statement that the Contractor shall reserve the right to use such other criteria as may be deemed appropriate in evaluating the proposals, even if such criteria are not mentioned in the RFP. State that proposers submitting the highest-rated written responses may be called for an oral interview to further assess their qualifications. For City contracts, **Required Insurance and Minimum Limits** are set by the City Risk Management staff in the Office of the City Administrative Officer of the City of Los Angeles on the Form Gen.146. The system is designed to be used primarily by insurance brokers and agents as they submit client insurance certificates directly to the City. It uses the standard insurance industry form known as the **ACORD 25 Certificate of Liability Insurance** in electronic format. The easiest and quickest way to obtain approval of your insurance is to have your insurance broker or agent access **Track4LA™** at <http://track4la.lacity.org> and follow the instructions to register and submit the appropriate proof of insurance on your behalf. Additional instructions and information on complying with City insurance requirements can be found at: http://cao.lacity.org/risk/Submitting_proof_of_Insurance.pdf.

A memorandum for the proposers listing attendees, documenting in writing each question answered at the conference, any actions taken during the conference, etc. shall be prepared to document the conference and conveyed to the participants. Contractors shall provide this information directly to the proposers who received the RFP but were unable to attend the conference or as an addendum to the RFP for any subsequent requesters. The memorandum should be filed with the record set of contractual documents retained by the Contractor. Materials handed out at the proposer's conference shall be available to all other parties following the conference. If a proposer's conference was not initially planned but the number or extent of questions regarding the RFP indicates a need for one, a separate notice should be mailed and the RFP due date extended if necessary.

- (13) Proposal Evaluation for RFP's
 - (a) Contractor/City shall develop proposal evaluation procedures in accordance with the requirements of Section D.14 above.
- (14) Failed Competition
 - (a) The RFP shall provide that it is the Contractor's/City's authority to determine that the procurement process has failed. The basis for failure should include a lack of response to the RFP; not enough bidders; a determination that the responses do not agree with mandatory requirements of the RFP; a determination that no proposer demonstrated effectiveness in providing the services solicited, and/or a determination that the award of a contract at this time to any proposer would not be cost effective, responsible or prudent. In the event that the City/Contractor determines that the procurement has failed, it may elect to negotiate a sole source agreement or develop and issue a new RFP.
- (15) Disposition of Proposals
 - (a) State that all proposals submitted in response to the RFP shall become the property of the Contractor/City and a matter of public record. Also, proposers must identify all copyrighted material, trade secrets or other proprietary information that they claim are exempt from disclosure under the Public Records Act (California Code Sections 6250 *et seq.*). In the event such an exemption is claimed, the proposer shall be requested to state in the proposal that he or she will defend any action brought against the Contractor/City for

Refer to the provisions herein regarding nondiscrimination and affirmative action and recite the text of this provision in the RFP. Attach as an appendix to the RFP the City forms (GSS-AA 1) instructing prospective subcontractors about compliance with the City's Affirmative Action Program.
