

K Paul Evans – Candidate Statement – 2017 – YUFA Treasurer

I have regular interactions with YUFA and teach accounting. I have also recently attended (all in November 2017) three conferences concerning nonprofit organizations, one of which related to nonprofit accounting.

In terms of membership of executive, I am committed to the reorganization of community projects funding and facilitating the faculty graduate-student bistro start-up, and am somewhat familiar with some issues confronting faculty associations.

In the treasurer role I would focus on financial reporting and planning, governance and risk management.
